

PROJECT MANAGEMENT FUNDAMENTALS

6-Hour
Online Workshop

PRACTICAL PROJECT MANAGEMENT

In this introductory course, learners will gain exposure to foundational concepts and practical tools used throughout the project lifecycle.

Topics follow a project from start to finish including project planning and execution, change management, communication, effective project meetings, and problem solving.

Participants will learn best practices for managing project progress, stakeholder engagement, and project risks.

TRAINING HIGHLIGHTS:

- Project Management Concepts
- Project Management Tools
- Project Tracking
- Effective Communication
- Risk Management
