

TECHNICAL TRAINING WORKSHOP

PRINT READING

Unlock the essential skills to read, interpret, and apply blueprints in manufacturing environments.

TRAINING INCLUDES:

- ✓ Visualize three-dimensional parts from two-dimensional engineering drawings.
- ✓ Understand symbols, line styles, and views that define part shapes.
- ✓ Learn to interpret dimensioning and tolerancing to ensure precision.
- ✓ Explore drawing notes, revision tables, title blocks, and detail views.

Location:

Clackamas Community College
19600 Molalla Ave. Oregon City

Dates:

Wednesdays, Oct 1 - Nov 5, 2025
Noon-3pm (18 hours classroom instruction + 2hr project outside of the classroom time)

Investment: \$675 per person

Upon completion participants will receive a Non-Credit Training Certificate and will earn 2.0 continuing education credits (CEUs) from CCC.
